

# **Executive Functioning Success**

## **Workshop/Professional Development**

Do you have students who appear lazy because they lack an internal sense of time, struggle to stay organized, miss deadlines, are chronically late, and aren't able to meet goals?

Attend this course and:

- ✓ Gain understanding of executive functions and the brain
- ✓ Learn visual strategies to plan days, weeks, months,
- ✓ Learn visual strategies to help organization
- ✓ Identify attributes of successful learners
- ✓ Learn about metacognition
- ✓ Meet deadlines and reduce stress

## **Who is this for:**

- Professionals in the field of education
- Parents looking to help their children (5th grade and up)
- Adults interested in learning new strategies to improve their own executive functions

In this class you will develop competency with strategies in the, "Seeing My Time" workbook to improve your own personal skills or to offer this program to your children or students.
